# Moser's Message

Happy Easter everyone! We are into the final third of the school year and look forward to all of the great things happening at the school this spring. Right now it does not look much like spring outside with our recent snowfall but the moisture is a good thing. We have had a very busy week heading into the break. As many of you may have heard from your student(s) we have been incubating chicken eggs at the school and we started off the week with a successful hatch. Thank you to the Olson family for finding us some eggs and for being willing to take the chicks home.

We had a lot of fun on Tuesday with our Beach Day. We want to thank those that participated in dressing up on this day. A big thank you goes out to our School Council for preparing and serving our Spaghetti hot lunch on Tuesday. We went swimming today in Lethbridge. It was lots of fun for everyone involved. Thanks to those that came along to help with supervision.

A big thank you to Mrs. Loewen our German instructor for all of her work on getting the students ready for the Easter Program last night at the school.

We are well into planning year end field trips and want to thank our Enchant School Council for providing the funding for all of the bus costs associated with year end field trips. Without this generous support the field trips would not be possible.

For those unaware we are currently without a School Counselor. After many years of being part of the Enchant Staff, Mrs. [Tara Odland](#) resigned from her position at the school. We will miss Tara and want to thank her for all of her work over the years within the Horizon School Division. We are currently working on finding a replacement.

We have some other exciting staffing news! In the weeks ahead we will be posting a teaching position for next school year. With the large number of students that we will have in Grade 1/2 next year we will be splitting the Grade 1 and Grade 2 class for the 2024-2025 school year. This is exciting news and we look forward to welcoming a new staff member in the Fall.

Principal  
Enchant School

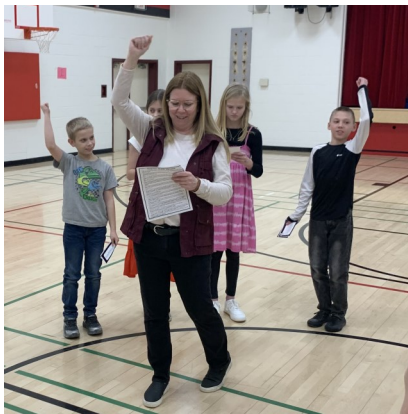

March was an exciting month for the grade 1/2 class! We were busy making leprechaun traps and the kids had a lot of fun. A little visitor left his footprints in the room and left little treats in the traps, desks and lockers. The students have been busy writing riddles and we are getting ready to share them with the kindergarten class. We have been measuring objects and using pan scales in science class. Exploring the idea of the "past" is the next topic in social studies. Hard to believe Easter is around the corner!

What a heart warming month! As a group we explored cause and effect. Experimenting with many different messy play items in which the children used fine motor skills, problem solving and critical thinking. PreK was able to explore the different stages of a solid to a liquid, and being able to create with it. We are looking forward to spring time and spending lots of time together in the outdoors.

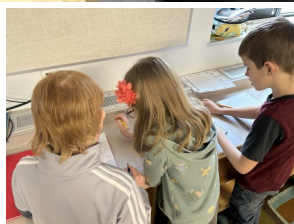

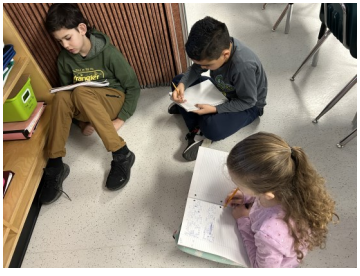

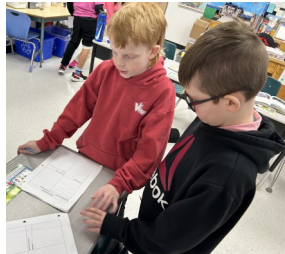

March in like a lion...out like a lamb? Kindergarten hopes so! We had a bit of a discussion about this and created some lions on our bulletin board! We are almost done learning all the letters of the alphabet and have begun to listen for more than the beginning sound in words. In the coming months, we will try to "build" some short vowel words. In math, we will start learning about 3D shapes discussing the names and characteristics of these shapes. We will be focusing on spring. We will discuss how we adapt to changes in weather as well as the discussion of plants, animals and our surroundings in spring. I want to wish each of you a blessed Easter break.

March has been such a busy month for the grade 5/6 class. We have performed a drama circle about the Loyalists in Social studies. We researched planets in our solar system in Science. We've written realistic fiction stories in LA and learned about fractions all month long in Math. Not to mention we've created sculptures in art and started a Pokémon club for all the enthusiasts in our class! April looks to be just as busy! Happy Easter everyone!

Cooperation and teamwork has been the name of the game! The grade 3/4's have been actively improving their peer editing skills in Language Arts, as well as sharing key points & facts during Social Studies. Not only do the students end up with finished products to be proud of, but they're also building confidence by sharing their learning to help others!

What a buzz the school was with the excitement of baby chicks this past week. They have now gone to their new home. Thank you to the Olson family for taking them in.
