For their field trip the grade 3/4 class will be bouncing around the Taber Gymnastics Club and in their spare time bowling at The Pin.

The Junior High class and Mr. O'Connor are headed to the great outdoors. From mountain biking to canoeing and fishing they better not forget to bring the bug screen or sunscreen.

June Events

- 
- 4 Indigenous Games pm
Track and Field Zones - Taber
 - 5 Early Learning Park Day
 - 6 Gr. 3/4 Field Trip
 - 10 Early Learning last day

 - 13 Gr. 9 Math P.A.T. part a
Kindergrad
Park Day
 - 14 Gr. 9 Math P.A.T part b
Last day of School

To: E.S.A.C.

For everything
you do for our
students and
staff.

Thank
you

Mosers Message

Enchant Families,

Only a couple of weeks of school left for the 2023-2024 school year. As expected it is a very busy time of year at the school as we complete field trips and prepare for a variety of end of the year activities at the school. One of those activities has already been completed. I want to thank all of the students for their efforts at our annual Track meet. It was a great day with great weather and some awesome competition. Thanks to the School Council for helping out with cooking the burgers that were enjoyed by all at the end of the morning.

We are in the middle of end of the year field trips. We would like to thank our School Council for helping to make these trips possible by providing funds for the buses to transport the students. It is much appreciated.

Next week at the school we have some grade 3 and 4 entrepreneurs that will be selling a variety of treats and other items starting on Monday June 3 and wrapping up on Wednesday June 5th. Items include candy bags, popcorn, pop, stickers, Hair scrunchies and popsicles. Most of the items cost a dollar or two. These students have been working hard to build simple business plans and are hoping for success in their business ventures.

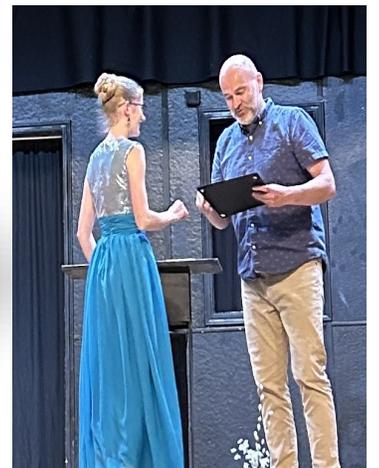

On the afternoon of June 4th our students will be participating in some Indigenous Games/activities on the field at the school. This is something that we do each year and the students look forward to this fun event. Come and check it out if you have the time.

Our grade 9 students write Provincial Achievement Tests on June 12, June 13, and June 14th. Our year end assembly will be happening on Friday June 14th, the last day of school. Start time will be as close as possible to 11:00 am. As grade 9's are writing an exam that day the start to the assembly may be a little bit later if students are still writing at 11:00 am.

Darryl Moser
Principal
Enchant School

Closing the door on their time at Enchant School!

Wow! Can you believe year-end is upon us?! This month we made handcrafted Mother's Day cards using scrapbooking products from an independent shop in Edmonton! As a class, we're also looking forward to our field trip coming up the first week of June. The countdown is on and boy, has it been a fabulous year.

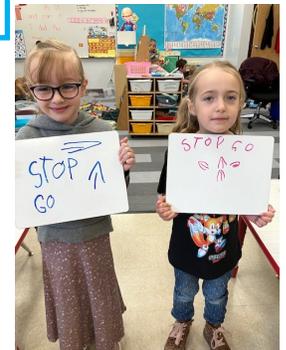

Sunshine & SUMMERTIME

Kindergarten is rapidly coming to a close and summer will be here very quickly. We have had a great year in kindergarten and have learned so many things. I am very proud of all that these students have accomplished. We would like to celebrate our year in kindergarten with a KinderGrad program that will be held in the afternoon of Thursday, June 13. Parents and guests that you would like to have at this short program of your kindergarten child are invited to come.

Thursday, June 13 is also your kindergarten child's last day of school. Wishing you all a safe and

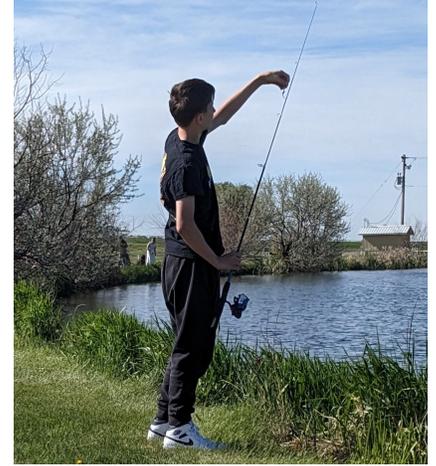

I can't believe the school year is almost over! May was a fun month in the grade 1/2 classroom. We were busy making Mother's Day crafts and enjoying watching our caterpillars change and grow into butterflies. The class wrote and illustrated their own picture books. The grade one students have been learning about numbers to 100 and the grade two students have been exploring numbers to 1000. In science we are investigating living and non living things. The class has been continuing to learn about Enchant's past in social studies. It has been a wonderful school year!

The grade fives and sixes have worked so hard all year. They are really looking forward to their well-deserved field trip to Heritage Park!

The Junior high are getting in a bit of practice for their year end field trip as well as learning about aquatic environments in science class

Wow! It is hard to believe that our year is almost over. PreK has been enjoying the warmer weather taking our play outside. We have been exploring different bugs and their life cycles. As a class participating in some loose parts exploration has allowed our nature play time to develop and become more diverse. As our time is coming to an end, we have been getting in as much play as possible and preparing for our next steps!
