'T WAS ONE CRAZY NIGHT BEFORE CHRISTMAS

Wednesday December 18, 2024
6:30 pm

Student Teachers

Miss Wenc McIntyre and Mr. McCaughtrie and have been a welcome addition to our staff over the last month. As they come to the end of their stay with us just before Christmas break we wish them well, on their way to becoming amazing teachers in the future.

Moser's Message

Thank you to all of the parents that attended Parent Teacher Interviews last week. It was great to visit with each of you about the learning and progress of each child at the school. We have had a great first term this year and look forward to all of the learning that lies ahead. Remember that you do not have to wait for these formal meetings to reach out and talk about your child with the teachers at the school.

A big thank you to all that helped out with our volleyball tournament earlier this month. It was great to host Vauxhall elementary and Lomond School for an afternoon of fun competition. The athletes showed so much improvement through the season and even during the tournament. Excellent fun was had by all involved. Basketball will be starting in the new year. Watch for information to come home regarding days and times.

As we head into the final month of this calendar year we are busy preparing for Christmas Concerts. Our Mennonite Concert is scheduled for Thursday December 12th at 6:30 pm and our whole school Christmas Concert will be on Wednesday, December 18th at 6:30 pm. We look forward to seeing all of you out for these two events.

Thank you to all of our school community members that stepped up once again to support the Christmas Shoebox campaign. We had a large number of shoeboxes full of items donated to ensure that Christmas happens for some of the less fortunate.

In two weeks we will say goodbye to our 2 student teachers. Mr. McCaughtrie and Miss Wenc McIntyre. It has been great having them in our school and we wish them all the best as they pursue their careers in Education

The staff and I look forward to seeing you all at our upcoming concerts and hope that you have a great month of December. Please feel free to call the school if you have any questions or concerns.

We are happy to have welcomed a student teacher into our classroom, Miss Wenc McIntyre. Students have participated in a wide range of activities with her, including a novel study using the book Fantastic Mr. Fox and learning about Indigenous groups in Alberta. Most recently, Miss W. led the students through a drama activity where they created tableaux. Can you guess what scene/activity each group was depicting?!

In November the children were very busy. There were many new interests explored such as wood working, collage making, letters, colours, and singing. The children were introduced to the first letter of their name and the sound that it makes. In the classroom we have had letter hunts and been connecting the sounds we hear with words. Messy play came about during offered painting times. The children explored it with many different objects and the properties of it. Messy play allows the children to create and explore different avenues that open up new language and skills.

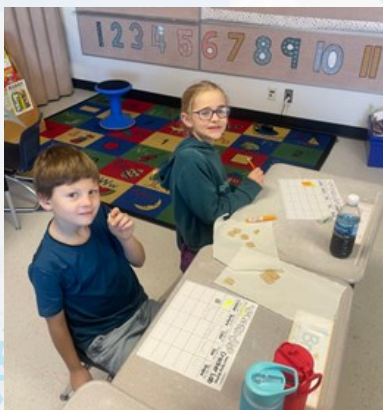

We are looking forward to our Winter Celebration in December as we count down the holidays together.

November has been a fantastic month in the grade one classroom! We have a student teacher and he has been doing a great job. Mr. M is an amazing musician and he plays the harmonica, guitar and flute. We have all enjoyed hearing his instruments! In math class the grade one's are starting addition and subtraction. We are all working on becoming better readers and writers. Everyone has been reading and writing daily! In science we have been learning about properties of matter. The kids have been exploring maps in social studies. We are looking forward to December and are

November has flown by! In science, grade two students used their five senses to explore the properties of different materials. They used their knowledge of properties in a cracker taste test. Students have been working hard on writing more detailed sentences and various ways to add detail. In math, students have been working on addition with regrouping, odd and even numbers, and comparing and ordering numbers. We have just started learning about fractions. We have been hard at work practicing our Christmas concert song, and can't wait to sing it for everyone.

Kindergarten students are always hard at work in Enchant School. We have just recently been introduced to the concepts of patterning and have mastered a two item pattern. We are now working on three item and some combination of objects type patterns. We have started to listen for rhyming words in books and how we can match rhyming words/pictures together by saying the word and listening for the ending sounds.

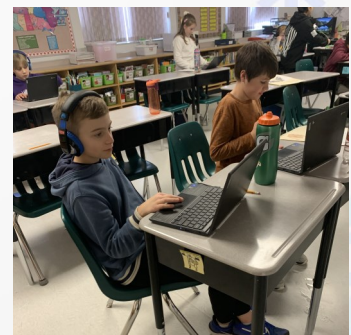

Thank you to all parents who took the time to come to parent teacher interviews. It is great getting to know you and your child through these types of conferences.

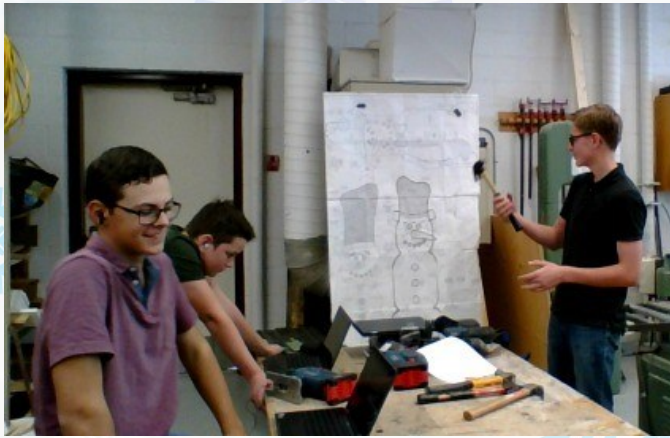

As we look forward to December, kindergarten will be presenting the nativity story as well as singing a song at the school Christmas concert. Students are quite excited to perform so we hope to see you there!

This month the 5% class started to learn our Christmas concert songs. The enrichment class is making posters and using AI to make cool videos and to learn about the Greek gods. Meanwhile the German class is practicing their German concert songs. We have been doing cool art projects in art class. We have been painting, coloring, and using oil pastels. A lot of people in grade 5% participated in the Enchant Volleyball Jamboree. We are looking forward to all the fun things that will happen in the month of December.

The Junior High has been busy finishing up the last snowman orders from the Harvest supper. Thank you for your hard work.

They have also been working on Learn a Trade activities in preparation for Skills Exploration Day in early December.
