- 21 No School
- 26 Badminton 3:40-4:40
- 27 Hot Lunch
Science Olympics

After School Badminton will run Wednesdays from 3:40-4:40 for grades 6-9 students

Pancakes and Pajama day is always a hit, a bit sticky but a whole lot of fun. A big thank you to the staff who helped to cook and serve close to 100 students pancakes and sausages. We are so lucky to have an exceptional team here at the Enchant School!

We will be hosting the Science Olympics at Enchant School this year. Good luck to those students who will be participating and thank you to everyone working behind the scenes.

**SCIENCE
OLYMPICS**

ESAC Spaghetti lunch was a huge success! Thank you to ESAC for another great meal.

Your dedication to the students and staff of Enchant School does not go unnoticed.

Even with the cooler temperatures no one got board on the ski hill or cold feet at the skating rink.

Thank you to ESAC for covering the cost of all the students on the ski trip. To the parents who take care of the ice at the arena we are grateful for all of the hard work that you put into it.

E3, a part of a Southern Alberta Collegiate Institute (SACI) career pathways

program, is a unique offering in collaboration with seven Southern Alberta School Divisions, Lethbridge College, and industry partners. Tailored for grades 7-9 students, E3 offers a hands-on approach to exploring Trades, Agriculture and Health Care. This program exposes students to careers and training available in those areas and the necessary skills and knowledge to succeed in these industries, making it a valuable opportunity for their future.

Mosers Message

Enchant School Community,

With the weather getting nicer over the last week it is hard not to feel like spring is in the air. It has been nice for the students to get back outside at recess and enjoy the warmer weather. With the warmer weather comes the end of our skating season. We had two full weeks of skating this year and we greatly appreciate those that work hard to keep the ice in tip top condition. We are so fortunate to have access to the rink and the students all love the opportunity to go and skate for PE class. If any of you have old skates or helmets that you are willing to donate it would be appreciated as there is some equipment that needs to be replaced. Helmets in particular are needed.

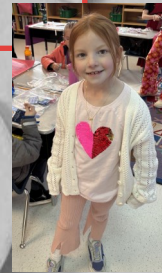

We had a great ski trip back on February 13th at Castle Mountain. It was a fantastic day for all who attended. A huge thank you to Enchant School Council for their generosity in funding this trip for all students at the school. I received compliments about our students from Ski instructors, our bus driver and the manager at the Fort Macleod McDonalds Restaurant. Thank you to the students that are doing an incredible job in representing our school community in such a positive manner.

Earlier in February our Grade 4-6 Basketball team competed in a mini tournament at Vauxhall High school where we competed against 3 teams from Vauxhall Elementary School. We played three games and won all three of our games. Our team displayed great teamwork and sportsmanship throughout the tournament. Way to go Eagles!

Badminton for grade 6 - 9 students will begin next week. Badminton will be every Wednesday after school from 3:40 to 4:40 until Divisionals/Zones in April.

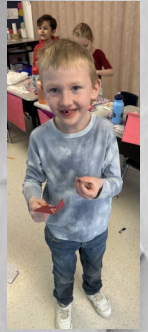

One final note. I would like to let everyone know that this will be my final year at Enchant School. I will be retiring at the end of this school year. Enchant School and the community it serves have been fantastic to me over the 3 years that I have been Principal. I will miss the students, staff and families that I have had the chance to work with over my time at the school. The search has started for my replacement. All parents should be receiving a document that will allow you to have input on the skills and qualities that you think are important for the successful candidate to demonstrate. I will always have a special place in my heart for the time and experiences that I have had at Enchant School. I am looking forward to the final months of the school year. Thank you for all that each of you do.

Darryl Moser
Principal
Enchant School

February was a short and fun month in the grade one classroom. We enjoyed skating and had an exciting Valentine's day party! The students are continuing to work on becoming better readers and writers. We finished reading short vowel words and we are starting to learn about consonant blends. Everyone is excited to count to 100 in math.

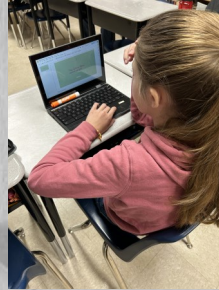

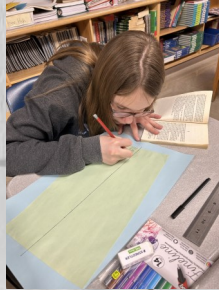

Energy and movement is our topic in science and the kids have been exploring the movement of animals and objects. We are continuing to discuss change in ourselves and our community in social studies. Hopefully spring is around the corner!

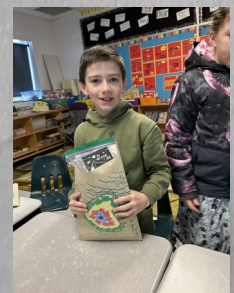

February in kindergarten has been filled with kindness that has been shown in our classroom this month. We enjoyed a valentine celebration and learned about pink shirt day. The focus was on how we can be a good citizen inside and outside of school. As we head into March, we will be learning the remaining letters of the alphabet. In math, measurement activities will be the focus and in wellness, the four food groups will be discussed.

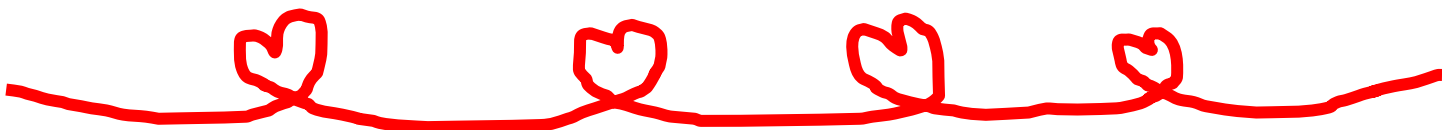

Junior High students have been working on a study of the novel Days of Terror. It tells the story of Peter Neufeld and his family, as they deal with the hardships of war, famine, and immigration to Canada during the late 1910's to early 1920's. Following the reading and completion of chapter reflections, the students are creating book projects to show off their understanding of the novel!

The grade 3/4's has a blast celebrating Valentine's Day. They decorated folders - with paper-pieced hearts & punny sayings - and exchanged valentines. Everyone was so grateful and the room was filled with smiles and shouts of, "thank you!" They also enjoyed a few sweet treats.

Time has flown by! The children have been learning about kindness and what it means to be kind these past few weeks. We have shared our own ways of saying thank you and what that looks like in our classroom. In March we are looking at exploring signs of spring and the baby animals that come

Summer Camp Anyone?

Our SKILLS Camps focus on individual skill development, breaking each skill down to the bare bones and building them up to being game ready.

Each participant will receive a camp T-shirt if registered by the deadline (two weeks prior to the start of camp).

These camps are open to all athletes, not just W.R. Myers students or LVC members!

We recommend registering for the age group that the participant will be in the upcoming school/club season.

SPOTS ARE LIMITED, SO REGISTER EARLY!!!

Registration is now open at
