Track and Field day

- Our annual track and field day will be held on May 9th. We are in need of some parent volunteers. If you are interested in helping out please contact Mrs. Bell at the office 403-739-3770.

It's truly amazing how quickly time flies! Watching the Grade 9 class grow, both academically and personally, has been such a rewarding experience. The journey they've had so far is just the beginning, and with all the potential and dreams they carry forward, there's no doubt that great things lie ahead for each of them. Here's wishing every single one of them the best of luck in their future adventures, and may they continue to fly high in everything they do!

Volunteers Needed for School fundraiser August 5 & 6

We're looking for parent volunteers to help out at our upcoming casino fundraiser on **Tuesday, August 5** and **Wednesday, August 6**. This is an essential contributor for our school, and in the past, the funds raised have covered **ski trips, jerseys, Chromebooks, year-end field trip busing, Missoula Children's Theatre, and so much more**—all at no cost to families!

We need volunteers for both day and night shifts:

- **Day Shift:** 1:00 PM – 8:00 PM (4 volunteers needed per day)
- **Night Shift:** 8:00 PM – 4:00 AM (5 volunteers needed per day)

No experience necessary! Training is provided with support staff on-site.

If you're available to help, please text or call Christine Stamp at 403-795-4798.

Your time makes a big difference, and we appreciate your support in making these

Moser's Message

Enchant School Community,

We hope that everyone had a great Easter break. We are down to our final 6 weeks of the school year and are looking forward to all of the activities and events that come with this busy time of year. Horizon School Division announced the new Principal of Enchant School for the 2025-2026 school year. Crystal Carver is excited about her new opportunity to be part of the school community and is looking forward to getting to know the students and families in Enchant. You can find out more about Mrs. Carver in this newsletter.

We are busy getting the students ready for the Track and Field Day next Friday May 9th. We are hoping the weather cooperates with us on that day. We hope to see you here on that day to cheer on the students as they try their best on the various events we have planned for the morning.

Year end Field Trips are coming up fast as well. Watch for information and permission slips to be coming home soon. Our Grade 9 Farewell is set for Friday, May 23rd. We are proud of our Grade 9 students and are looking forward to celebrating their time at Enchant School.

Another important piece of information in the newsletter is the request for volunteers to work at the Casino in Lethbridge on August 5 and 6. Enchant School provides students with incredible opportunities and resources that are not often available in small schools. Some of these include our Ski Trip, end of year field trips, Missoula's Theatre Group and also in the past Chromebooks have been purchased to ensure a 1 to 1 ratio at the school. These activities and resources are made available through the funds that come from the Casino Fundraiser. All students that participate in the activities listed above are benefitting directly from this fundraiser so please make yourself available on August 5 and 6 to volunteer if possible.

Please help us to welcome our new Principal Mrs. Crystal Carver!

Horizon School Division

Press Release

April 8, 2025

Horizon School Division Welcomes New Principal for Enchant School, Crystal Carver

April 8, 2025,

The Horizon School Division is pleased to announce the appointment of Mrs. Crystal Carver as the new Principal of Enchant School commencing with the 2025-2026 school year.

Crystal Carver is a third-generation teacher who has been with the Horizon School Division since 2002. She spent the first twenty-two years of her career teaching math and physics at W.R. Myers High School, and most recently made the switch to the role of Instructional Coach this past year. Crystal also serves on the Local ATA Executive as both Vice President and Local Women in Leadership Chair.

Mrs. Carver's education, completed at the University of Lethbridge, includes a combined Bachelor of Science and Bachelor of Education, majoring in Mathematics, with a minor in Science Education.

Crystal has been married to her husband Kurt for almost twenty-five years, and they have two daughters, Emily and Rebecca. She enjoys camping, reading, traveling, laughing, and being around family. Her favorite moment of her career so far has been the opportunity to teach both of her daughters while at W.R. Myers.

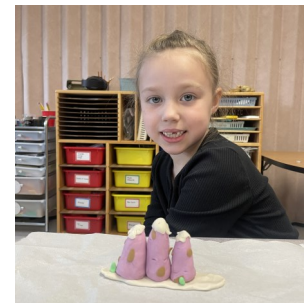

While responding to how she feels about her new adventure, Crystal stated, "I am so thrilled and looking forward to joining the Enchant school community! It is very obvious to see that the students and the staff enjoy going to school every day. I am looking forward to working with everyone at Enchant School, to continue the longstanding tradition of a welcoming environment and quality education." She also mentioned that she was thankful for the opportunity this past year to work with all the staff at the Division Office and is excited to join the strong team of administrators within Horizon School Division.

Please join us in congratulating Crystal on her new assignment with the Horizon School Division.

Marie Logan, Board Chair

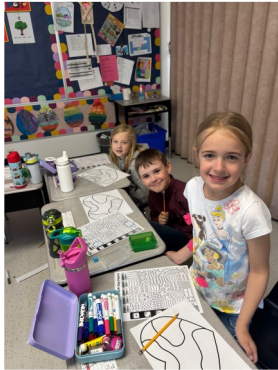

The presenter - Scott Gillespie - brought seeds, dirt and sprouting plants to examine. He also shared about the drone he uses out in the fields! This program is always a yearly highlight.

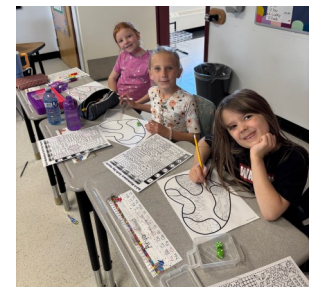

April has been full of hands on learning! In science we finished learning about landforms found in Alberta, and made our favorite ones out of playdough. We also started learning about the life cycle of plants and planted our own beans and peas, hopefully we will have some seedlings soon! In social studies, we decorated pysanky eggs which are traditional Ukrainian Easter eggs, thank you our parent volunteers who helped! Before Easter break we had an Easter egg hunt with Early Learning, it was great to see everyone playing and helping one another! We were super lucky to have Dr. Wilco Tymensen as our mystery reader this month!

April has been a busy and fun month in the grade 1 classroom. The students wrote riddles and they shared them with the Kindergarten class. We have been exploring Enchant's past and we are learning about the First Nations people. In science we are discussing the differences between living and non living things. We finished the month learning about Earth Day and we picked up garbage on the playground. It has been wonderful watching everyone enjoy the spring weather!

Cannot believe that May is right around the corner. Only 6 weeks left of school and they will be busy. We are still learning about living systems in Science and citizenship in Social. We have started reviewing for year-end assessments in Language Arts and Math. Scattered among the learning we have Sports Day and our field trip to SABC coming up. So much to look forward to!

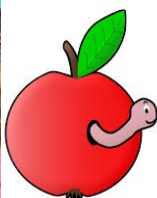

Wow! It's hard to believe that we are in the last months of school! There are lots of activities planned at Enchant School that will make the weeks fly by. Kindergarten had a wonderful trip with the school to the swimming pool. Thanks goes out to all the parents for helping to make that activity possible for kindergarten. This past month we enjoyed learning about spring, making lots of Easter and spring related crafts, as well as going on an Easter egg hunt. As we head into May, we will be learning to listen for ending sounds in words in language learning. In math, we will be discussing some 3-D shapes and their characteristics and then learning how to identify some canadian coins after that. We will learn a bit about owls that will help prepare us for our field trip. Please look for a field trip permission form that will be sent home soon with details for our year end kindergarten trip that will be held on Tuesday, May 27. I will be looking for a couple of volunteers who could spend the day with us and help out.

The children in April engaged in open activities of our play topic, which involved marbles, animals, and the beginning of plant life cycles. Before Easter break, we got to share in some fun with the Grade 2 class. Prek enjoyed going on an easter egg hunt with the older students, and the Grade 2s were awesome leaders for us. It was so great to see all the friendships forming through this activity.
